

Upload (POST)

Overview

This POST API can also be used for bulk upload data processing with a file Id and Template, same as like above mentioned BulkProcess API.

This will only differ in the response returned.

URL Format: <https://<Instance>/leo-bulkprocess-api/api/BulkProcess/Upload>

Request

<https://<Instance>/leo-bulkprocess-api/api/BulkProcess/Upload>

Payload:

```
{
  "FilePath": "string",
  "TemplateId": "string",
  "FileId": "string",
  "DocumentReference": "string",
  "CallbackUrl": "string",
  "BulkProcessId": "string"
}
```

Response

```
{
  "statusCode": 0,
  "url": "string",
  "batchId": "string",
  "interval": 0,
  "intervalType": "string",
  "receivedCount": 0
}
```
